AVAILABILITY

17 November 2026

Available for a three-month internship

PROFESSIONAL PROFILE

Information Systems graduate candidate with practical skills in Excel, Python, SQL and Power BI. Experienced in cleaning data, analysing records and building clear dashboards through personal projects. Interested in applying these skills to conservation data and field reporting.

DATA ANALYSIS PROJECTS

EXCEL SALES PERFORMANCE DASHBOARD

Built an interactive Excel dashboard using sorting, filtering, formulas, PivotTables, PivotCharts and slicers to analyse sales records. View project on GitHub

PYTHON SALES DATA ANALYSIS

Cleaned spreadsheet data with Pandas, calculated sales indicators and created charts with Matplotlib. View project on GitHub

SQL SALES ANALYSIS

Used MySQL joins, filters and grouping to analyse customers, products and transactions. View project on GitHub

POWER BI BUSINESS PERFORMANCE DASHBOARD

Built interactive Power BI charts, KPI cards and slicers; used DAX measures for reporting. View project on GitHub
